STEP 1

- 1) Insert the five castors [A] into the base as shown in the diagram, make sure all castors are firmly inserted.
- 2) Insert the gas lift [C] into the center of star base [B] as bellow step.
- 3) Insert the gas lift [C] as shown in the diagram, and place telescopic cover [D] over the gas lift [C].

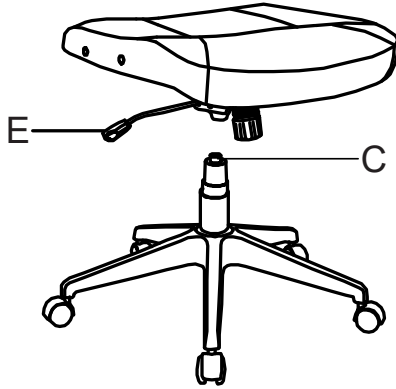

STEP 2

Attach the seat plate [E] to the bottom of the seat cushion [F] with screws [I] by using allen wrench [K] as shown in the diagram. Do not full tighten the screws until all screws are in place.

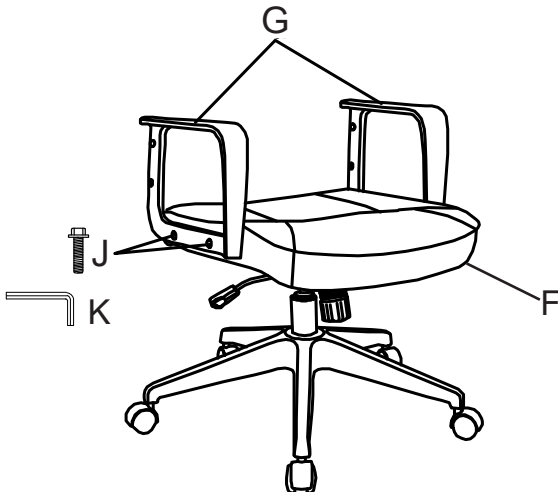

STEP 3

Place the assembled seat onto the gas lift [C], making sure the gas lift [C] top is inserted into the hole on mechanism [E] as shown.

STEP 4

Attach the armrests [G] to the each side of seat cushion [F] with screws [J] using allen wrench [K] as shown in the diagram. Do not full tighten the screws until all screws are in place.

STEP 5

Place backrest [H] between the two armrests to make sure that the upper holes on both parts are aligned as bellow diagram shown. Secure with screws [J] and lightly turn the screws with allen wrench [K].

STEP 6

1) Tilt the backrest [H] upright until the holes at the bottom of both parts are aligned and tighten all screws [J] with allen wrench [K].

2) Cover the screws with plastic caps [L], making sure they fit tightly.
